REMARKS

Meet project personnel at Gator Gold Shell Station at 9:30 AM in Napoleonville at hwy 69 & 70

DNR personnel: Bret Barras, Butch Romero, Selma Oubre, Mike Theriot

DEQ personnel: Jason Fontenot

Air Boat driver Raymond Horton with Dauterive Contractors, Inc.

6 well sites were accessed by air boat, 2 well sites were unaccessable due to excessive foliage.

1 well site on land was accessed by the use of a local land owners 4 wheeler. This well site is in a swamp area.

Water location well serial numbers: 61481, 31536, 31279, 30973, 30948, 47499

Land location well serial number 147615

2 water location well serial numbers unaccessable: 13073,55963

All well locations were navigated to by using GPS co-ordinates and photos were taken at each site.

DEQ agent used an Infa-red camera to attain a hydrocarbon reading at each site. No measurable reading was aquired from each site.

Liberty Resources well 214140 active producing well site was inspected to see if bubbling was occurring. 5 wells for Liberty Resources were inspected for bubbles due to their location to Bayou Corne and the pipelines of interest. No bubbles noted.

Previous Orphan Well locations P&A'd in 2010 were inspected for bubbles. No bubbles were noted.

Pipeline right of ways for Crosstex and Acadian Gas were traveled by air boat. No bubbles were noted. The only area where visable bubbles were noted was at the pipeline crossing in Bayou Corne. DEQ agent used the I/R Camera to obtain a hydrocarbon reading, but, none was obtained.

Return to Bayou Corne landing by air boat to meet up with the land team.

process data and send to system.

Previous Orphan Well locations P&A'd : 41802, 204623, 42606, 40885

Liberty Resources wells: 214140, 34173 SWD, 45657, 216268, 216348

Michael Theriot
